

L2i-S650 PHOS- Slimline Sliding Doors

The L2i-S650 Slimline Sliding Doors are the ideal solution for projects requiring wide spans with minimal aluminium sight lines. They are capable of weights of up to 600kg on the manual system and on the automated system up to 700kg.

These beautiful Slimline Sliding Doors are a great addition to any property to maximize light whilst giving a modern slimline frame.

These elegant doors are a versatile product giving considerable design freedom as they are available in multi-sash combinations.
